

VicForests Request for Tender (RFT 2021.3):

Pre-Harvest Surveys

North East, West Gippsland, and East Gippsland Regions

Frequently Asked Questions

- ***Are there guidelines for conducting 'Bat' surveys?***

Where VicForests indicates Bat surveys may be required, initial survey effort would be conducted via a CHASS (Coupe Habitat and Sign Survey), with contractors surveying for the possibility of potential Bat Roosts (tree roosts or cave roosts).
